

Visualizing a Map Based User Experience for Travel Exploration

FLIGHT CLUB – Gaurang, Subrat, Pragya

make **my** trip

2021 R/CRYPTOCORE LEHTI

THE WHY?

India's \$26.2 Bn Travel market is seeing booming growth at a CAGR of 15.7% driven by Tier 2/3 travellers and social led experiential travelling. However, the industry needs to solve for user friendly discovery and research options to reduce user fatigue and drive conversions

WHAT THE MARKET SAYS

Tier2/3 cities in India accounted for **74%** of the growth in Indian Travellers

1 in 2 Indians rely on social media influencers to decide where to travel

75% Indians rated experiences in trips as their top choice while planning

WHAT THE TRAVELLERS SAY

BUSINESS TRAVELLER

3

I don't want to waste time **searching through lots of options**. I need an **optimized end-to-end itinerary**, in few clicks

SOLO EXPLORER

4

Searching for hidden gems that I actually enjoys **requires hours of research**. Finding **budget friendly places with a safe community** is a must for me!

FRIENDS & FAMILIES

8

When I select a hotel, I want **basic amenities around** me when I go **with my family** while I want a **better nightlife and party places near with my friends**.

COUPLES

4

Personalization of my travel experience is extremely important for me. I want to **visually explore not just the place but the experience around**.

WHAT THE USER JOURNEY SHOWS

ANSWERING UNFULFILLED USER NEEDS

LAYERS

Experience based heatmap creation leading to themed map overlays based on mood/occasion like "Quiet Retreats", "Nightlife", etc.

Provides easy to browse, visual way to shortlist and book

- PAIN POINT SOLVED -

Lack of options supporting emotional and contextual discovery for informed decision making.

SHORTLIST

Smart itinerary builder with centralized stays/ experiences, auto-generation of commute/ day-wise plans, offering travel journey visibility.

An end-to-end journey now visualized.

- PAIN POINT SOLVED -

Fragmented planning across notes, tabs, chats with difficulty in visualizing the whole trip

VIBE LENS

Surfaces real-time trending themes like "Beaches", "Festivals", sparking inspiration and actionable ideas for people looking for relevant travel recommendations

IMPLEMENTATION ROADMAP

DRIVING PULL THROUGH CTR FOCUS IN-APP

Curated Collections:
Auto personalized tiles (like Netflix) on homepage

Creative Push notifications:
Too many maps opened? We mapped it for you

Live Activity Pins:
Dynamic pins like : “people booked their travel on map”

Boot Animations:
Discover a smarter way to explore now!

Location based nudges:
Pop-ups like: “Other travellers in your area have booked...”

Gamifications:
You unlocked 3 hidden gems in the past week

The How?

A structured, phase-by-phase launch framework detailing key tactics, success benchmarks and strategic alliances to drive rapid adoption and ROI for MakeMyTrip Maps. Essentially, the gameplan to put Map My Trip on the Map

HYGIENE

- Spend : **8 lakhs**
- Expected Reach: **24 lakhs**
- ROI Goal : **3X**

- Spend : **7 lakhs**
- Expected Reach : **36 lakhs**
- ROI Goal : **2.5X**

- Spend : **4 lakhs**
- Expected Reach : **15 lakhs**
- ROI Goal : **2X**

- Spend : **4 lakhs**
- Expected Reach : **20 lakhs**
- ROI Goal : **2X**

Anticipation (P1)

Generatting intrigue & curiosity to create strong pre-launch buzz and excitement

- **Cryptic Pin-Drops:** Placing mysterious red pins at popular hangouts & tourist hotspots, driving speculation.
- **Social Countdown Teasers:** Releasing daily cryptic pin-teaser stories counting down to launch.
- **Influencer Hints:** Collaborating with influencers to post blurred or partial map snippets hinting upcoming map features.

Exclusive Launch (P2)

Rewarding Influencers & Power users with first-access to drive advocacy and credibility

- **Interactive DOOH Murals:** Outdoor installations in prime hotspots sparking curiosity and app visits.
- **Smart Shortlisting Preview:** Offering MMT Black users exclusive early access to shortlist stays.
- **Influencer Blitz:** Running influencer-driven campaigns where creators share their personal "Maps My Trip" weekend plans.

Expansion (P3)

Establishing MMT Maps as the go-to planning tool through mass adoption & virality

- **Celebrity-led Campaigns:** Cementing Maps with ads featuring Alia Bhatt & Ranveer Singh, aligning MMT's current brand positioning.
- **"Hidden Gem" Leaderboard:** Rewarding the top 10 uses who add the most unique hidden gems to Maps: driving organic user participation.
- **High-Impact Partnerships:** Activating partnerships to drive mass traffic and usage.

Budget Split: 1.25 crores

Risks & Mitigation Strategies

Delayed Partner Activations (Zomato, Ola, etc) → Early partner agreements & dedicated relationship managers

Influencer Engagement Below Expectations → Performance-based influencer agreements & backup creators

Lower User Engagement than Projected → Dynamic retargeting, personalized offers, proactive push notifs

Key Partnerships

Curate Food & Event Experiences

Enable Seamless Travel

Unlock rewards & Easy transactions

Endorse Indian heritage trails

Category	Budget (₹ Lacs)	% of Total	Why This Level?
Influencer & Celebrity	35	28 %	• High-impact social proof: Travel brands typically allocate 20–30 % of marketing spend to influencers to drive authentic UGC and reach new cohorts. • Calculation: $35 / 125 \times 100 = 28 \%$.
Organic & SEO	20	16 %	• Sustainable discovery: SEO and content drive 30 %+ of long-term traffic; allocating ~15–20 % ensures strong, cost-effective top-funnel growth. • Calculation: $20 / 125 \times 100 = 16 \%$.
Paid Media & Digital Ads	30	24 %	• Scalable reach: Paid channels (Google, Meta) account for roughly 25–35 % of budgets in high-growth categories, delivering immediate impressions and clicks. • Calculation: $30 / 125 \times 100 = 24 \%$.
Events & Partnerships	25	20 %	• Experiential pull: Live events, DOOH and brand alliances need ~20 % to fund installations, co-promos and on-ground activations that drive PR and app installs. • Calculation: $25 / 125 \times 100 = 20 \%$.
Creative & Production	15	12 %	• Quality at scale: Video shoots, design, AR assets and copywriting usually consume ~10–15 % to maintain brand consistency across channels. • Calculation: $15 / 125 \times 100 = 12 \%$.
Total	125	100 %	

How we arrived at these numbers:

- **Benchmarking** against travel-industry norms (influencer spend ~25 % of budget, paid media ~30 %, SEO ~15 %).
- **Strategic priorities:** social-first buzz (influencers), mass reach (paid), and durable growth (SEO).
- **Simple math:** each line = (category budget ÷ total budget) × 100.

This allocation balances **short-term impact** (influencers, paid) with **long-term sustainability** (SEO, content, partnerships) to hit our **2.7x – 4x ROI** target.
